

## Shuttle Service

Rates from dic 1 2009 to dic 1 2010

We offer hotel-to-hotel shuttle service connecting all main tourist destinations. This service is especially convenient because it is safe, efficient and delivers you directly from one hotel to another. All shuttle buses are air-conditioned and non-smoking

Travel safe, economic and comfortable in our units, each one has air conditioned, permanent communication with our central offices and is handled by an expert uniformed driver. Choose between some of our routes, travel calm and leave to us your security and tranquility in the roads; we travel to all the most important tourist destination of the country.

- The supplied departure time is the estimated time for the shuttle's departure from the city.
- will give a separate pick-up time when the trip is booked.
- These two times vary because passenger pick-ups take place at many different hotels.
- Therefore, we will assign each hotel with a separate pick-up time, which depends upon how close they are located to the route exiting the city.
- We are not able to issue hotel pick-up times because they vary depending upon the number of passengers and the hotel locations for any given service
- Passengers with no reservation will not be allowed in the vehicles even if there is space available.

We pick up you at your hotel and we will take you to your destination, without complications, minimums of passengers and in a daily operation.

**PLEASE MAKE SURE TO LET US KNOW THE HOTEL WE HAVE TO DROP YOU OFF**
